Employees Earning Kudos - EEK!!!

(don't be scared)

This is an **UN**presentation!!

No expectations,
no disappointments

big pooppy face

DON'T QUESTION ME

I know what I'm doing.

Do you really need me toexplain it?.....

A simple way to say thank you for all to see and cherish for that warm fuzzy feeling that we are all a nice happy team that appreciates each other.

- Very short message (i.e. - 80 characters) with high-order thinking!
 - *Hey Lewie, your bleeding edge value-added presentation had my eyeballs on your core competency cloud computing strategies for the next generation*
- Sent freely, and invested in a *piquant humor milestone
- Win-win Miniature peer review survival strategy
- Countless peer recognition alignment
- Decentralized sustainability streamlining Anti-Bureaucracy
- Self managing teams - i.e. Agile methodologies!!! :)
- Motivating (unless you are a sourpuss ... maybe?)
- Archived to grow, moving forward with analytics
- Useful for performance reviews reaching out for organic growth
- Seamless patterns for quick association i.e. - @recipient_initials

* Ask Phil what it means. I can't remember and he knows everything...

Nobody, and I mean "**NOBODY**"* ...ever thought of this!!

- Linden Lab internal project "Love Machine"
 - Customized JIRA
 - Tied into bonuses (\$3/love)
- EX-CEO, Philip Rosedale
 - Started [Love Machine, Inc.](#)
 - open to the public to use
 - **\$5/person/month**
 - *Love is the answer. Everything... will lead you astray unless your actions come from love. Love is the most subtle and complex emotion. It can be experienced at peak intensity only with the full power of the human intellect and in the calm of a fearless and lucid mind. The direction of evolution is toward love. Hence the company name. - TAO of Love Machine*
- Re-branded to [Send Love](#)

I'm going to need you to...

...We lost Charles to the plague this week, and we need to play a little catch up. Thanks..

Pair up. Setup the profile page. Tackle some of these ideas, or make up your own.

- Display a "Gravatar"
- Show the users name
- Show the users initials
- Display a message that instructs someone of how to send a huckleberry to the user.
 - ie - "To send this person a huckleberry, use @LM in the message"
- Display the top 10 most recent huckleberries that the person received in descending order
- Display the top 10 more recent huckleberries that the person sent.
- Display the number of huckleberries that the person sent/received (today, yesterday, this/last week, month, year, and all-time)
